Chord Quartet Upscaler

Šifra: 23579
Kategorija prozivoda: DAC-ovi
Proizvođač: Chord Electronics

Cena: 3.588.000,00 rsd

Advanced proprietary Blackbird WTA Filter: Utilises the most advanced interpolation algorithm to deliver a tenfold improvement in transient timing accuracy.
Five Xilinx FPGAs: Features massive processing capability with 3,700 DSP cores running over two million lines of proprietary code.
Hardware-level processing: All digital filtering is implemented directly in hardware, completely avoiding the timing errors caused by software FFT convolution shortcuts.
Integrated Pulse Array ADC: The first Chord Electronics upscaler to accommodate analogue sources (such as turntables) via RCA inputs, eliminating traditional aliasing distortion through advanced decimation filtering.
Two-box architecture: Separates the sensitive audio circuitry from a dedicated power supply featuring a proprietary pinch-off RF filter architecture to reject mains-borne noise.
108-bit lossless digital EQ: A ten-shelf equalisation system providing ±18 dB of adjustment across frequencies with zero degradation of signal quality.
Comprehensive digital connectivity: Equipped with isolated USB-B, optical in, BNC in and dual BNC outputs supporting maximum resolution up to 768 kHz (optimised for pairing with the DAVE DAC).
Programmable Latency: Offers selectable delay from 10 milliseconds to three seconds to ensure perfect lip-sync during audio-visual playback.
Full Power consumption: 130 W
Standby power consumption: 20W
Dimensions: 7.8 cm (H) 33.5 cm (W) 15.2 cm (D) (Also applied to the power supply)
Weight: 3 kg; PSU 3.2 kg (Optional Ensemble Stand [sold separately]) 5.1 kg (small leg); 6.25 kg (medium leg)
Digital inputs:
• 2x BNC (or dual BNC)
• 2x Optical
• 1x USB-B (galvanically isolated)
Digital outputs:
• 1x Optical 192 kHz
• 1x S/PDIF
• 2x Dual BNC 768 kHz output
Analogue inputs: 2x RCA

Cene su informativnog karaktera. Prodavac ne odgovara za tačnost cena iskazanih na sajtu, zadržava pravo izmena cena. Ponudu za ostale artikle, informacije o stanju lagera i aktuelnim cenama možete dobiti na upit. Plaćanje se isključivo vrši virmanski - bezgotovinski.
