Experience a new level of convenience with the Roon Ready JBL Classic MP350, letting you access the cutting-edge music management platform. With hi-resolution audio support up to 24bit/192kHz, MQA compatibility, and gapless playback for continuous, uninterrupted listening, this streamer contains the tools required for a more faithful musical experience. Fitted with both analogue and digital outputs, enjoy an advanced listening environment.

Get Connected
Designed to be used with a variety of wireless sources, this JBL Music Streamer is equipped with Apple AirPlay2 and Chromecast built-in, allowing you to stream your favourite music from any compatible device. Enjoy the convenience of streaming your music library with ease, or access your favourite streaming services including both Spotify Connect and Tidal Connect. The MP350 lets you connect to the internet via either WiFi or Ethernet, giving you options for placement convenience or high-speed reliability.

Hi-res Playback
The MP350 supports MQA audio, key to experiencing near studio-quality music with absolutely limited file compression without sacrificing speed. With an inbuilt DAC, supported by time domain jitter elimination, this Music Streamer can process audio files up to 24 bit/192 kHz, as well as gapless playback for uninterrupted listening. It also comes certified Roon Ready, meaning you can integrate into the Roon ecosystem for the highest possible quality music, management, metadata and multi-zone experience.

A Heritage of Music
Whilst the JBL Classic MP350 may sport a retro aesthetic, with natural wood veneer side panels and a minimalistic aluminium face plate, it contains nothing but advanced modern technology. The stylistic look of this music streamer has been implemented to give modern hi-fi systems a classic flourish or fit into an older system whilst bringing it up to date with quality wireless streaming. The MP350 offers you a link to a monumental and ever-growing collection of music and home audio entertainment.

JBL Professional Audio App
The JBL Classic MP350 is a fusion of retro-flair and modern functionality. In order to maintain the sleek distinction of the aluminium front plate, JBL have designated all operations to your smart device. The JBL Premium Audio App (available through the Google Play or Apple App Store) serves as your portal to a wide range of network streaming services, internet radio stations and podcasts, and USB and UPnP playback. Moreover, with support for Qobuz, Amazon Music, and Spotify and Tidal Connect, you can access your pick of playlists all in one place. It's also Roon Ready, offering complete network compatibility.

Key Features
Complete control of the MP350 is available via the JBL Professional Audio App
Supports Hi-res audio up to 24 bit / 192 kHz for crystal clear sound
Apple AirPlay 2 compatibility and built-in Chromecast for seamless streaming
Experience high-quality audio through Tidal Connect with MQA support
Wireless access to a vast library of music and audio streaming with Spotify Connect
Certified Roon Ready for an advanced listening experience, browsing and integration
Connect to your amplifier or active speakers with both digital and analogue output options
12v trigger output gives you the opportunity to set up seamless system integration
Nostalgic charm, with Classic-styled natural walnut veneer side panels
