record directly from the built-in uni-directional or omni-directional stereo microphones, connect your own mics to the rugged locking Amphenol XLR/TRS connectors, use a camera microphone or line source for recording or record from a digital SPDIF source. 24 or 48 volts of Phantom power on the XLR inputs are available for the use of studio condenser mics and Mid/Side microphone configurations can be decoded before or after recording. This ensures that

virtually all fields of application are covered – from music, speech and atmosphere recordings to meeting minutes and live concert recordings.

Many other improvements and new features as well as the multilingual menu make the DR-100MKIII an easy-to-use companion for sound recordings at the highest level.
