image not found or type unknown

**Entry level wireless microphone, VHF, 8 selectable channels per band**

### A new Benchmark is set

The TG 100 is the first entry-level wireless system that includes a **pilot tone function** which provides a lot of advantages. **Speech clarity** combined with user-friendly handling and improved protection against interference makes the TG 100 a handy all-round wireless system. Developed for smaller sound installations as well as for ambitious hobby musicians the TG 100 wireless system is equally adept to both speech and singing.

### Music sessions

Live show or band practice, the handheld transmitter containing a professional dynamic microphone capsule meets all needs. The handheld set is the perfect stage tool for ambitious hobby musicians and offers the necessary flexibility for any kind of performance.

### TG100 FEATURES:

#### Pilot Tone Function

The pilot tone prevents noise and assures user-friendly handling. The TG100 wireless system uses the pilot tone to identify a correct signal for improved interference-free transmission and to transmit a low battery warning as well as the audio mute information to the receiver.

#### Sound Switch

The integrated sound switch equally improves the clarity of speech and vocals without the need for a mixing console.

#### Professional Diversity Receiver

The professional diversity receiver ensures best signal reception even in a complex environment.

#### 24 Channels

A rotating dial allows the user to choose between 8 different channels. 3 available band variants enable the use of up to 24 channels simultaneously.

**10 h Battery Operation**

With a battery operation of 10 hours there is no need for concern regarding extensive encores or long-lasting events.

**The handheld set includes:**

TG 100 receiver	TG 100 handheld	Power
	Batteries
