READY FOR STAGE

The TG H56 microphone commands but does not attract attention - in other words, a commanding and balanced sound meets a subtle appearance. The splash- and sweat-proof omnidirectional microphone can be worn on both sides thanks to the rotatable ear hooks. In addition, it can be positioned with precision due to the variable microphone arm - benefits that come in to their own when the microphone is used for musicals, theater or sport.

OPUS PIN OUT

The "Opus" version works with pocket transmitters from the various Opus radio series such as -300, -500, -600, -800, -900 and -910. For wired connection to a microphone input with phantom power the "CV 18" power supply is required. "Opus" and "TG" versions are electrically incompatible.

TOURING GEAR

THE BEST LIVE MICROPHONE SERIES WE'VE EVER BUILT.

Touring Gear - a series of live microphones that are set to excite performers in studios and on stages all over the world.
