Condenser clip-on microphone (omnidirectional), waterprotected, for film and theatre applications

The TG L55c clip-on microphone is the first choice for television and film, as well as for presentations and theatre applications.

The omnidirectional polar pattern of this acoustically balanced lavalier microphone allows a lot of flexibility in positioning – the TG L55c can be worn on a lapel, and it can also be disguised on the face with makeup. It is also water and sweat-proof, and is exceedingly insensitive to pop noises.

Available in both black and tan.

SCT:

- No proximity effect due to omnidirectional polar pattern
