

BEYERDYNAMIC TG L55c helix

Šifra: 9813
Kategorija proizvoda: Instrumentalni Mikrofoni
Proizvođač: Beyerdynamic

Cena: **17.880,00** rsd

Condenser microphone (omnidirectional) for instruments, with helix clamp

The versatile TG I55c helix condenser microphone really demonstrates its strengths when used in combination with the violin, viola, recorder, dulcimer, fretted stringed instruments or zither, cello, double bass and many other instruments.

It delivers extremely natural, true sound reproduction without colouration due to the proximity effect. The omni-directional polar pattern ensures even sound – regardless of how the capsule is positioned. For wired operation at a phantom powering input, the optional CV 18 is necessary.

A further advantage is the unique, innovate clamp that enables quick and easy mounting without drilling holes and without scratching the instrument.

SCT:

No proximity effect due to special omni-directional polar pattern

Technical data

Price category	Mid-level
Transducer type	Electret condenser
Polar pattern microphone	Omnidirectional
Microphone frequency response	20 - 20.000 Hz
Dimensions	Cable length: 1.2 m
Net weight without packaging	14 g
