VOCAL MICROPHONE

The combination of sleek design and rugged construction that is perfect for the stage, this exceptional sound makes the TG V50 (s) a reliable companion that you will never want to be without.

READY TO USE

The readiness of the TG V50 is also impressive - plug it in and it's ready. It is advantage like these that will win it many fans for use in lead and backing vocals of all music genres as well as by professional rental companies and sound technicians.

POWERFUL SOUND

The TG V50 is characterised by a balanced, powerful and natural sound that will never seem obtrusive. Thanks to its sturdy construction, the vocal microphone is perfect for day-to-day on-stage use.

SWITCH

The TG V50 is also available with a switch as the TG V50 s. The switch, which is embedded in the grip, can be locked and doesn’t emit any ‘clicking’ sound.

SOUND CHANNELLING TECHNOLOGY

To achieve that "unique" beyer sound, beyerdynamic has been developing and refining its Sound Channelling Technology (SCT) for decades. Our acoustic expercts have created acoustic labyrinths with special geometries that provide optimised sound channelling. They influence the sound and model the polar pattern by using precisely tuned delay lines and attenuation pads. Whether with additional elements, special materials or unique design: every beyerdynamic microphone has its own SCT to ensure optimal control of the sound waves. The result? Incredible sound quality.

TOURING GEAR

THE BEST LIVE MICROPHONE SERIES WE'VE EVER BUILT.
Touring Gear - a series of live microphones that are set to excite performers in studios and on stages all over the world. Rugged in design with phenomenal audio quality, they are the perfect complement to beyerdynamic's legendary M series models, including well-known classics such as the M 88 and M 160.
