Kategorija proizvoda: Klasični Efekti
Proizvođač: ADJ

Cena: **8.280,00** rsd

The ADJ Micro Phase, part of the Micro LED Series, is a Moonflower effect that fills a room with dozens of multi-colored razor sharp beams from it's 3-IN1 RGB TRI LED. This device is going to offer a fantastic show for your audience or party guests. Leave it to the 3-in1 RGB TRI LED to shower the room with that perfect mix of color and soft toned lighting.

Have the ADJ Micro Phase run off the music with the built-in microphone for sound active movement. Have it run all night because this device runs extremely cool due to it having no duty cycles. Included with this unit is a hanging bracket, and with only weighing 2 lbs, you can expect easy an easy installation process. It will also make your job easier as the lights can be projected on the wall, ceiling, or floor. Use the FX knob to change the lighting to a static or clockwise and counterclockwise rotation.

When the Micro Phase is going at full speed there are 108 multi-colored dichroic beams shooting on the dance floor and all around the room. With it's low power consumption, long life LED source, and it's ease of use, the Micro Phase is a great effect that brings pure lighting excitement to parties, karaoke events, small bars/clubs, and for home use.
