Numark TT 1610

Fantastic Belt Drive Turntable

Solid ABS Cabinet and Aluminium Platter
Supplied with Cart, Stylus, Cable and Slipmat

+/- 10% Pitch control

Numark continues its reign as the UK's biggest DJ brand with the introduction of a new belt drive turntable. The TT1600 features a durable ABS cabinet and base construction, aluminium platter and a precision tonearm design that's ideal for DJ use.

The deck has a multi directional design making it suitable for both mixing and scratching, with dual start/stop controls which enables users to configure the position of the turntable to suit their own needs, as well as selectable 33 and 45 rpm speed settings, and an adjustable pitch range of +/- 10%. The high precision tone arm has anti skate adjustment, and is supplied with a fitted cart. The deck is also supplied with a slipmat, and detachable cable for connection to your mixer.
