ADJ Vortex 1200 - Roto glava

Šifra: 11041
Kategorija prozivoda: Roto Glave
Proizvođač: ADJ

Cena: 115.080,00 rsd

ADJs Vortex 1200 is a unique moving head fixture that features a Moon Flower effect which rotates and zooms in and out thanks to its 16 piece rotating lens kit. This effect produces hundres of powerful multi color beams from twelve 10W RGBW quad LEDs. When zooming, the beams criss- cross from 5 to 44 degrees creating a spectacular light show. Operate this light with a DMX controller, activate the 23 built in macros or use in sound active mode easily from its on board control. The Vortex 1200 can be linked to other units via DMX IN and OUT for control and can also be power linked to other units using Powercon IN and OUT connections. The Vortex 1200 is also compatible with ADJ's easy to use UC3 line of controllers.
