ADJ XS 200

Šifra: 11048
Kategorija prozivoda: Roto Glave
Proizvođač: ADJ

Cena: **27.480,00** rsd

The ADJ XS 200 is a new revolution in moving lights. It features a single Axis head that has continuous 360 degree tilt rotation. The XS 200 utilizes 2 x 10-Watt LED that project sharp beams of light. Its compact size and lightweight makes it ideal for mobile entertainers, small club and bars, roller rinks, bowling centers or any mobile production.

The XS 200 creates the ultimate visual effect that involves fast moving beams and color changes. In show mode you can access 9 different built in shows or create your own color palette by color mixing the RGBW LEDs via DMX control.

The XS 200 comes with 3 different operating modes; sound active mode with sound sensitivity adjustment, show mode, or DMX control, used to create your own moving light shows or color combinations. The XS 200 can be used as a stand alone unit or in master-slave set up. The XS 200 is UC IR compatible (Sold Separately). The UC IR is used to control various functions for the XS 200.

• Single axis Moving Head
• 360-degree continuous tilt rotation
