NUMARK VJ 01

Image not found or type unknown

Featuring a 5.6-inch LCD TFT tilt screen display, the VJ01 boasts pitch-control capability, a slider control for both DVDs and CDs, and soft-touch rubber transport controls. It also supports all standard DVD features, is PAL and NTSC compatible, and allows looping for repeating video clips. Its arsenal of effects such as cue, loop, zoom, angle, and slow motion.

The VJ01's club-tested interface, based upon Numark's legendary CD players, makes operation a snap. With all this, it's the perfect tool for club and mobile DJs searching for a powerful, affordable video solution.

Pitch control for audio and video
