

WARM AUDIO WA12 - 500 MKII

Šifra: 12121

Kategorija proizvoda: Pretpojačala

Proizvođač: Warm Audio

Cena: 45.000,00 rsd.

Utilizes premium grade input and output USA CineMag transformers.

71db of Gain, fully discrete signal path.

Utilizes a discrete 6-pin socketed 1731 style opamp. Can be replaced with other 6-pin "2520 foot-print" opamps for varying tone/flavor.

TONE button - Switches the input impedance from 600 ohms to 150 ohms. Changes the tone of both the mic and HI-Z inputs.

2 Meg Ohm True HI-Z input on front panel. Sends instrument signal through entire circuit including both Cinemag Transformers and the discrete opamp. Great for guitars, bass, keyboards and other instruments that have a 1/4" output jack.

48 volt Phantom Power.

Output attenuation control (after the CineMag output transformer) allows for driving the preamp and transformers into saturation.

LED Meter gain indication.

20db pad.
