

# ZOOM U-24

Šifra: 12022  
Kategorija proizvoda: USB Zvučne kartice  
Proizvođač: ZOOM

Cena: 17.880,00 rsd

|                                                                            |                                                                      |
|----------------------------------------------------------------------------|----------------------------------------------------------------------|
| <b>ANALOG IN: Input 1/2</b>                                                |                                                                      |
| <b>Connector:</b>                                                          | TRS/XLR combo jacks (XLR: 2 hot, TRS: TIP hot)                       |
| <b>Input gain:</b>                                                         | 0 – 43 dB                                                            |
| <b>Input impedance:</b>                                                    | 2.6 k Ω (MIC IN) 1.1 M Ω (when Hi-Z ON)                              |
| <b>Maximum input level:</b>                                                | +2.7 dBu (MIC IN) /+20.7 dBu (TRS IN)                                |
| <b>Phantom power:</b>                                                      | +48V                                                                 |
| <b>ANALOG OUT: Main Out L/R</b>                                            |                                                                      |
| <b>Connector:</b>                                                          | TRS phone jacks (unbalanced)                                         |
| <b>Maximum output level:</b>                                               | +10 dBu (at 0 dBFS)                                                  |
| <b>Output impedance:</b>                                                   | 330 Ω                                                                |
| <b>ANALOG OUT: Line Out 1/2</b>                                            |                                                                      |
| <b>Connector:</b>                                                          | RCA (coaxial)                                                        |
| <b>Maximum output level:</b>                                               | +8 dBu (at 0 dBFS)                                                   |
| <b>Output impedance:</b>                                                   | 1k Ω                                                                 |
| <b>ANALOG OUT: Phones</b>                                                  |                                                                      |
| <b>Connector:</b>                                                          | Standard stereo phone jack<br>30 mW x 2 (into 32 Ω load)             |
| <b>Maximum output level:</b>                                               | +10 dBu (at 0 dBFS)                                                  |
| <b>Output impedance:</b>                                                   | 33 Ω                                                                 |
| <b>Frequency characteristics:</b>                                          |                                                                      |
| At 44.1 kHz: -1.0 dB: 20 Hz - 20 kHz<br>At 96 kHz: -3.5 dB: 20 Hz - 40 kHz |                                                                      |
| <b>Input conversion noise:</b>                                             | Measured EIN: -119.5 dB (IHF-A)<br>at 43 dB, 150 Ω input             |
| <b>Number of audio recording and playback channels:</b>                    | Recording: 2 channels<br>Playback: 4 channels                        |
| <b>Sampling frequencies:</b>                                               | 96 kHz, 88.2 kHz, 48 kHz, 44.1 kHz                                   |
| <b>Bit depth:</b>                                                          | 24-bit                                                               |
| <b>Interface:</b>                                                          | USB 2.0                                                              |
| <b>MIDI IN/OUT:</b>                                                        | 5-pin DIN jack                                                       |
| <b>Power Source:</b>                                                       | USB bus power (Type B)                                               |
|                                                                            | Zoom AD-17 (Micro-B)                                                 |
|                                                                            | DC 5V power supply (Micro-B)                                         |
|                                                                            | 2 AA batteries (4 hours continuous operation with phantom power off) |
| <b>Power consumption:</b>                                                  | 5W maximum                                                           |
| <b>Dimensions:</b>                                                         | 191.8 mm (D) x 92.3 mm (W) x 42.7 mm (H)                             |
