Beyerdynamic Amiron Home

Optimised Tesla Technology

Modifications to the transducer have diminished unwanted vibrations to an absolute minimum and completely eliminated annoying treble resonances. More precise than ever, the sound tuning will amaze even the most discerning music enthusiasts.

High-Resolution Sound

Fine-tuned by Beyerdynamic's sound engineers the Amiron creates concert-quality sound with tight bass, transparent midrange and pleasantly clear highs. The precise and clear musical portrait these headphones paint of each and every instrument is sure to delight music lovers.

Fully Open Design

The open design of the headphones produces a spacious, natural sound, and you feel an incredible closeness and transparency in the music. Escape from your daily routine and let your favourite concert surround you any time you like in your very own haven of tranquillity.

Perfect Comfort

The balanced contact pressure exerted by the headband ensures the Amiron home remains securely and very comfortably positioned around your ears, while the use of highest-quality Microvelour with temperature-balancing and moisture-regulating effects make listening a pure pleasure.
