SPL 1w/1m: 93dB

Max peak: 106dB

Frequency Range : 60 Hz - 20 KHz

Dispersion @ 1 kHz: 180°, 4 kHz: 80°, 8 kHz: 45°

Dimensions:

Cut out : 183 mm

Outside : 205 mm

Depth : 80 mm

Weight : 1.2 Kg

The APart CM608 2-way built-in loudspeaker is "the reference loudspeaker". It can be used with a standard HiFi amplifier and provides you with a Pro HiFi sound.

The loudspeaker has an enforced 6 ½" woofer and 1" tweeter. It makes the CM608 very suitable for the distribution of background music.

The housing is made of high quality ABS. The woofer is made out of polypropylen, what makes it moisture-proof.

This loudspeaker is easy to install, due to its simple, quick mounting system (3 screws which are hidden behind the loudspeakergrill, which gives the loudspeaker a modern and striking design).

The CM608 is in white color RAL 9010 but is also standard available in black (CM608-BL) and silver (CM608-SLV). From 12 pieces on, the loudspeakers can be painted optionally in any other RAL colour. (Ref.: PAINT-CM).
