Biamp E VOL120 - Atenuator

Šifra: 04957
Kategorija prozivoda: Oprema za instalacije
Proizvođač: Biamp

Cena: 7.560,00 rsd

Type : Euro
Handling Power : 120 Watt
Voltage : 100 Volt
24 V priority : Yes
Attenuation steps : 11 + “0”
Build-on box : E-MODON
Dimensions (HxWxD) : 80 x 80 x 50 mm
Weight : 336 grams
color : E-VOL120 : white
The APart E-VOL120 is a 100Volt volume control that can handle up to 120 Watt of power.

It is very versatile thanks to the step-by-step attenuation in 11 steps + zero position.

The E-VOL 120 is designed to handle 24V priority signals. This means that you can always get an announcement out, even to zones where the local volume control is in the ‘OFF’ position!

If your amplifier has a 24 V priority output, it will send a 24 V signal when you push the talk button on the microphone. The 24 V signal will close a relay on the E-VOL120 volume control, and the signal will pass, even when the volume control is in the ‘OFF’ position. This can be very useful for emergency or evacuation messages.

The E-VOL120 is built on a universal chassis that easily can be integrated with Gira, Jung and Euro. Different cover plates are available for the UK market.

Cene su informativnog karaktera. Prodavac ne odgovara za tačnost cena iskazanih na sajtu, zadržava pravo izmena cena. Ponudu za ostale artikle, informacije o stanju lagera i aktuelnim cenama možete dobiti na upit. Plaćanje se isključivo vrši virmanski - bezgotovinski.
