The time saving click mount system enables all installation cabling to be completed at the mounting bracket and the speaker is simply clicked into place at final fix.

The MASK6CT background music loudspeaker benefits from a stylish innovative design and are rated at 150 watts RMS when used in low impedance 16 ohms (up to 4 loudspeakers in parallel on a standard 4 ohms amplifier channel) or 60 watts in 100 volt line systems. Power tapings of 60, 30,15 & 6 watts are selected via a rotary switch on the back.

The powerful 6.5" woofer and Ferro-fluid cooled 1" silk dome tweeter offers high SPL and ultra low distortion. The internal bracketing and shape of the cabinet avoids internal interference and optimises the sound quality.

Built in auto-reset overload protection - 3-step Protection Guard is effective even at high power loads. Suitable for use either indoors or outdoors, supplied with wall mounting bracket and available in black, MASK6CT-BL or white, MASK6CT-W.
