miniBlink Step 1 miniBlink Step 2 miniBlink Step 3

Streaming high quality music from your favourite mobile device is now easy with the miniBlink Bluetooth audio converter.

Engineered by Arcam, and using the aptX™ transmission system, the miniBlink allows any Bluetooth equipped music device to quickly and easily send music straight to a Hi-Fi system with stunning quality. The miniBlink uses a high-end PCM 5102 DAC to convert music to a line level output ready for connection to a whole host of audio systems. Installation is easy with a simple pairing system for new devices. Music is delivered by Arcam electronics so you can be sure of world-class sound quality too!
