ELECTROCOMPANIET Tana SL-1 Silver Stripes

Combine it with the active loudspeaker, [TANA L-1](#), to create a HiFi stereo system. You'll be amazed by the big sound of this small system. You can also add the [SIRA -L1](#) to add even more depth to the setup.

TECHNICAL SPECS TANA SL-1

POWER AMPLIFIER

- 150 Watt Class A-B amplifier
- DAC 192kHz/24bit

On its own it is a perfect companion to bring music to the bedroom, kitchen, the home office, living room - or any other room. Combine it with the active loudspeaker [TANA L-1](#) to create wireless HiFi stereo.

Or even better, with loudspeakers in every room to enjoy high quality sound throughout the whole house.

EC REMOTE APP

Easy to control

Our free app for iPhone, iPad and Android devices offers easy access to all features and settings of the system.

It allows you to command your system, set it up and control it.

Choose your style

There are even many colors and finishes to choose from, so the EC Living products can be customized to suit your style and mood.

TECHNOLOGY

HIGH-END Audio DNA

World-class sound of the highest standard is part of our DNA, and EC Living is built around 150 Watt Class A-B amplifiers from Electrocompaniet's [Classic Line](#) - world renowned for groundbreaking quality of sound since the early seventies.

TECHNOLOGY

High performance custom made speaker elements

The loudspeaker elements have been carefully designed by us to optimally perform in this specific system. From the ground up, they are optimised to work with as little space as possible and in conjunction with the DSP.

MADE IN NORWAY

Scandinavian design

EC Living is pure Scandinavian design and engineering. The system combines high quality sound with Norwegian design heritage and intuitive, simple wireless control. EC Living is designed and built in Norway, ensuring the highest standards of quality.
