

ART PRO AUDIO MX225

The

ART PRO AUDIO MX225

Šifra: 00289
Kategorija proizvoda: Višezonske Miksete
Proizvođač: ART

Cena: 31.800,00 rsd

level zone outputs. All audio connections are balanced XLR. The built in power supply and single high 19" rack mount format allows for easy installation and reliable operation.

MX225 is designed for remote volume control of multiple amplifiers or powered speakers in a distributed audio system. Two stereo sources are available to each of five output zones. Each source input pair handles separate left and right balanced line level signals. Each output zone features independent level control from inputs 1 and 2, stereo/mono selector with mono indicator, LED level metering, and left and right balanced line

Features

Left and right balanced Source 1 and 2 Inputs, accepts stereo or mono signal sources
Five Zone channels each feature Source 1 and 2 level controls and left and right balanced output XLR connectors

Mono indicator LED on each zone channel indicates that mono has been selected

Source 1 and 2 indicator LEDs show you when signal is present in each source channel

Source 1 and 2 input channels are internally routed to all five Zone channels

Stereo/Mono selector on each zone sums left and right into Mono mode when engaged

Five LED level metering (-25, -20, -15, -10, Clip) on each zone channel indicate signal activity for each zone

Specifications

Input Connections: XLR-F balanced (x4)
Input Impedance: 47k Ohms
Total Harmonic Distortion: .05% Typical
Maximum Input Level: +20dBu
Maximum Gain: +6DB
Weight: 5.34 lbs (2.42 kg)

Output Connections: XLR-M balanced (x10)
Output Impedance: 200 Ohms
Signal to Noise Ratio: > 90dB typical
Maximum Output Level: +24dBu balanced
Dimensions: 1.75"H x 19"W x 7.25.0"D (44.5mm x 483mm x 184mm)
Power Requirements: USA - 105 to 125 VAC / 50-60Hz, 15 Watts typical
