LED h2O Water Effect

Šifra: 13594

Kategorija proizvoda: Klasični Efekti

Proizvođač: Nedefinisan

Cena: 11.400,00 rsd

[SPARE PARTS / DOWNLOADS](#)

This professional LED effect light by Eurolite brings RGB colors in every window display, party room or trade fair! Light up the room in any color you like to impress your audience.

The H2O Water Effect is operated via the DIP switches or a DMX controller. You wish to illuminate a larger area? No problem! Simply link multiple spots via the supplied connection cable to create impressive light effects.

For a permanent installation you can simply use the pre-punched hole on the bracket of the fixture. As the fixture is delivered ready to use, all you have to do is install it and switch it on - plug and power cord are included. Once you plugged in the H2O, you can use preset programs like slowly fading colors, rapid color changes, strobe effects or constant light in a single color. Brightness can be manually adjusted as well. It's entirely up to you to make the most of your event!
