### **Audix DP4 Microphone Pack Microphone Kit at a Glance:**

i5 for snare and toms

D6 for kick drum

#### **D6 for kick drum**

The D6 has a frequency response of 30Hz-15kHz and is characterized with a cardioid pick-up pattern. The D6 is designed to sound good in any position and it is not dependent on finding the "sweet spot" of the drum. The D6 capsule features the same legendary VLM technology that has made the D series percussion and instrument microphones very popular for today's live stages and recording studios.

#### **i5 for snare and toms**

The i5's cardioid polar pattern allows it to focus on the specific instrument that is being miked while rejecting other instruments or ambient noise on stage. With a smooth and uniform frequency response of 50Hz-16kHz and an ability to handle sound pressure levels in excess of 140dB, the i5 can be used for a wide variety of applications and for all genres of music.

#### **Audix DP4 Microphone Pack Microphone Kit Features:**

A complete kit for miking drums

The DP4 Microphone

Pack includes:

One D6 Kick Drum mic

Three i5 Snare/Tom mics

Satisfy your drum mic needs with the Audix DP4 Microphone Pack!
