Powered by **Beyerdynamic's** advanced Tesla technologies that have been perfect for many years, you will be able to hear even the finest nuances in detail. **Aventho Wired** has also been awarded the esteemed Hi-Res Audio certificate as it is able to easily process high-resolution audio, making it a first-class portable listening solution.

Beyerdynamic Aventho Wired can be folded up effortlessly thanks to its rotatable housing shells, and an integrated three-button remote control and a high-quality hands-free microphone make it simple to control media playback and calls on smartphones or tablets.

Discover the details.

Nuanced Sound

Powerful bass, clear mids and delightfully silky highs; Aventho wired creates an expansive audio experience that places the listener right in the heart of the music. Beyerdynamic's legendary Tesla technology provides a unique richness of detail, so you discover a fresh nuance in your music every time.

High-Resolution Audio

Certified for Hi-Res Audio the Aventho wired is right at home with high-resolution audio files. This means the rich musical features of lossless high-resolution audio files are faithfully preserved during playback and you hear music almost like being in the recording studio.

Travel-Friendly

Aventho is an ideal travel companion with swivelling earcups that allow the headphones to fold up neatly to stow in the included travel pouch. This highly portable headphone seamlessly merges with active lifestyles.

Mobile Communication

With the enclosed cable that includes a microphone and a remote control with three buttons the Aventho enables control of calls, media playback and volume adjustment on most smartphones and tablets.

Made in Germany

Aventho wired is handcrafted in Germany, benefiting from Beyerdynamic's experience and expertise. This assures perfect harmony right down to the last detail to guarantee you many years of enjoyment with your Aventho headphones.
