Šifra: 13985

Kategorija proizvoda: Gramofoni bez Phono sekcije

Proizvođač: Pro-Ject

Cena: 39.480,00 rsd

PRO-JECT Debut III DC Matt Blk OM5e

The

structurally improved Debut III turntable is a great tool for novice audiophiles who want to play vinyl records. As an enhanced version of the classic Debut turntable, it features stronger tonearm with top-notch bearings. Instead of the headshell being designed as a plastic attachment, it comes directly on the arm. As a result, it's able to better suppress unwanted noise. All you'll hear is a perfect distortion-free recording.

Key features

An improved version of your favorite turntable for even clearer playback

Aluminium arm with a single piece headshell

Comes with the Ortofon OM5E cartridge

Reduced vibration with separate DC motor + special damping feet

Polished ball bearing with minimal tolerance

A chassis made from solid MDF chipboard

Off-source power (included)

Ready for the most demanding listener

It uses a quiet synchronous motor mounted over sorbothane dampers that uses a silicone strap to drive the platter. Due to its advanced design, any undesirable resonance is effectively transferred to the base arm and then into the chassis. Therefore, the main part of the chassis is made of a lightweight but very rigid chipboard. The turntable is supplied with an Ortofon OM5E cartridge, so you can just plug into an appropriate system with a preamplifier and listen in excellent quality.

Specifications:

Technical data:

Speed 33/45rpm (manual switching)

Principle: Belt Drive

Platter: 280mm MDF with a felt pad (0.9kg)

Arm 8.6", aluminium

Effective arm length: 218.5mm

Effective arm mass: 9.5g

Overhang: 18.5mm

Supplied counterweight: 3 to 5.5g (optional counterweight 1.5 to 3g, 6 to 9g)

Downforce range of 10-30mN (min-max)

Signal to noise ratio: -65dB

Dimensions:

Lid closed: 415 x 118 x 320mm

Lid open: 415 x 365 x 405mm

Weight:

5.1kg
