Q ACOUSTICS Q3030i GRAPHITE GREY zvučnici za policu

Acoustics 3030i is the latest bookshelf or stand-mount addition to our award-winning 3000i loudspeaker range. Designed to deliver big, bassy, hard-hitting yet beautifully poised sound from a compact, discreet and good-looking cabinet, it's packed with Q Acoustics' latest technological advances. Featuring a 165mm mid/bass driver developed from the powerful 3050i floorstander, along with an optimised motor, 3030i has bass extension and control superior to that of any nominal

Extraordinarily Low 46kHz Response for Punchy, Controlled Bass

P2P Computer-Aided Bracing Eliminates Cabinet-Borne Resonances for the Cleanest, Most Accurate Sound

Custom-Designed Stand for Perfect Placement, Perfect Isolation and Perfect Stability

Braced For Action

Braced For Action

Like the whole of the 3000i range, the 3030i features Q Acoustics' unique point-to-point bracing. This computer-aided process provides targeted and precise cabinet support, so the cabinet is supremely rigid and unwanted vibrations are banished.

**Beautiful Inside
& Out**

Not only does the entire 3000i range feature all-new cabinet aesthetics but it also offers four contemporary finishes: Graphite Grey, Arctic White, English Walnut or Carbon Black. As with the rest of the 3000i range, the 3030i features magnetic grilles and an attractive chrome finish around each driver.

**Dynamic and
Detailed**

The all-new 165mm mid/bass driver is a precision-formed cone made from impregnated and coated paper, and is teamed with an optimised motor. Because it's capable of such prodigious low-frequency presence, the 25mm tweeter above it is decoupled - so it's isolated from the vibrations of the mid/bass driver. Which means clearer, purer sound.

Power With Control

**Power With
Control**

The 3030i features an oversized 165mm mid/bass driver developed from the big, powerful 3050i floorstander, and it's also fitted with that speaker's 25mm decoupled tweeter. The result is extraordinarily substantial bass presence, beautifully poised and eloquent mid-range reproduction, and crisp, spacious high frequencies. Hear all the power and detail of your music.

Enclosure Type	2-way reflex
----------------	--------------

Bass Unit	165 mm
-----------	--------

Treble Unit	22 mm
-------------	-------

Frequency Response (+3 dB, -6 dB)	46Hz - 30 kHz
-----------------------------------	---------------

Average Impedance	6 Ω
-------------------	-----

Minimum Impedance	4 Ω
-------------------	-----

Sensitivity (2.83 Vrms@1 m)	88 dB
--------------------------------------------	----------

Stereo Amplifier Power	25 - 75 W
---------------------------------------	--------------

AV Receiver (2 ch. driven)	50 - 125 W
-------------------------------------------	------------------

Cross-over Frequency	2.4 kHz
---------------------------------	------------

Effective Volume	12.5 l (763 cu. inch)
-----------------------------	--------------------------------

Enclosure Dimensions	W200 x H325 x D329 mm
---------------------------------	--------------------------------------

Weight Each	6.4 kg
