The Prime Satellite pushes performance to new levels, with design and component quality rivalling speakers two and three times the price. The Satellite speaker stands on its own, or matches perfectly with SVS subwoofers in 2.1, 5.1 and 7.1 systems, or it can serve as the front, centre, and surround speakers in a very capable, very affordable multi-channel home theatre system. The compact size and included wall bracket also make the Satellite ideal in locations where space is limited, but high performance is desired.

Strategically placed, Prime Satellites create awe-inspiring realism and seamless sonic transitions from front- to-back and side-to-side. When the lights dim and the score fades in, they flood your room with dynamic audio realism and action. Painstakingly voiced and sonically matched, Prime Satellites are designed to blend with SVS towers, bookshelves, or in a system all their own for endless listening possibilities.
