

Antelope Verge - Studijski mikrofon

Šifra: 14128

Kategorija proizvoda: Sa Malom Dijafragmom

Proizvođač: Antelope Audio

Cena: 17.880,00 rsd

Hear The Emulations

Antelope plug-ins serve up a treasure trove of vintage analogue mics with uncanny accuracy, delivering all the character and expressiveness heard on countless hit records.

Available in VST, AU and AAX formats for both macOS and Windows, they provide everything you've come to expect from our industry-leading FPGA FX, with minimal latency, a high degree of oversampling and precise floating-point calculations.

Ilok 2 or 3 required. Not included in the pack.

Verge (small diaphragm condenser modeling microphone)

Microphone type: Instrumental

Diaphragm: Back-electret condenser

Polar Pattern: Cardoid

Freq. response: 40Hz ~ 20kHz

Sensitivity: -40dB | 10mV/Pa (+/-3dB)

Self-noise: 25dB(A)

Max input SPL: 146dB

SNR: 69dB(A)

Output impedance: 65 Ohms

Power Requirements: 48V DC Phantom Power

Output Connector: 3-pin male XLR

Color: Black matte

Weight (mic body): 0.34 lbs. (155 grams)

Dimensions (mic body): 6.1" x 0.87" (155mm x 22mm)
