Works with virtually all video and audio apps

Includes windscreen for outdoor use

Custom ASIO driver for superior performance on Windows machines

Say goodbye to unwanted noise

iRig Mic Video makes it effortless to capture clear, high-quality audio. It features a gold-sputtered condenser capsule with a tight, directional pickup that focuses directly on the subject in front of you and rejects distracting background noise and surrounding sounds. Enjoy a quiet, clean signal thanks to 24-bit, 96 kHz converters. iRig Mic Video is also the first shotgun-style mic for smartphones to offer adjustable gain. And for outdoor use, simply pop on the included windscreen.

Any device, anywhere

Whether your go-to video device is a smartphone, tablet, professional DSLR camera or a combination, you'll never miss that perfect shot. iRig Mic Video features a magnetic mount that quickly snaps onto your mobile device, even with a case, and includes a hot shoe adaptor to easily mount to many DSLRs. With the included Lightning, Micro-USB, USB-C and DSLR cables, you'll be ready wherever your day leads, so you can switch from a serious studio setup to ultra-mobile outdoor rig without missing a beat.

Sound your best

To ensure you're always recording great audio, a multi-color LED lets you conveniently and discretely check signal level at a glance, and the headphone out lets you monitor directly in real-time, or listen back to processed audio, so it fits into your workflow flawlessly.

For DSLR cameras, iRig Mic Video offers a 10dB pre-amplifier, boosting the signal before it hits your camera to reduce any noise generated by the camera's built-in audio circuits.

IK Multimedia iRig Mic Video

Features

Capture professional-quality audio for video

Gold-sputtered condenser capsule

Supercardioid pattern for noiseless recordings

24-bit, 96 kHz converters for crystal clear sound

Unlimited options

iRig Mic Video works with any app that records audio, from the built-in camera app to the most high-end video capture solutions. To get you started right out of the box, iRig Mic Video includes iRig Recorder 3 LE (iPhone/iPad/Android) – an easy-to-use, high quality audio and video app. Record, trim, edit and share, right from your device.

With the iRig Mic Video and its innovative features at your fingertips, you'll always lead the charge with great-sounding audio.

An all-in-one, run-and-gun solution

Looking for a small but comprehensive video rig? Check out the iRig Mic Video Bundle, combining iRig Mic Video and iKlip Grip Pro, IK's multi-function smartphone and camera stand. With an elegant, ergonomic design that transforms from handgrip to monopod to tripod in seconds, iKlip Grip Pro is the ideal way to securely position your smartphone – and a standard UNC ¼" thread lets you mount iRig Mic Video, lights or other accessories on top. It's everything you need to capture pro-level video in any situation, in a lightweight and portable rig.

The Creator series from IK Multimedia puts you in the spotlight with fast and easy tools to help you create professional content. Its budget-friendly solutions are ideal for YouTubers, podcasters, live streamers and other social media platforms, and include a variety of mobile and studio-friendly microphones, interfaces and smartphone stands. With convenient features and flexible options, you'll be covered wherever and whenever inspiration strikes.
