IK Multimedia iRig PowerBridge Ligh.Ver. - IOS napajanje

Šifra: 14190
Kategorija prozivoda: Mobilni, Foto i Video Dodaci
Proizvođač: IK MULTIMEDIA

Cena: 500,00 rsd

Featuring an ultra-low noise audiophile grade power conditioner, comprehensive connection options and other advanced features, it’s the easiest way to plug-in and keep your iOS device charged while practicing or performing with your favorite Lightning compatible digital IK gear.

Features

Allows continuous use and charging of an iOS device while connected to a digital iRig accessory

Works with iRig accessories with Lightning connectivity from a Micro-USB or Mini-DIN port

Ultra-low noise audiophile-grade power conditioner

Status LED indicates when device is charging

A streamlined solution

iRig PowerBridge combines a power supply and an ultra-low noise audiophile-grade power conditioner that connects to a power outlet on one end and a Lightning iPhone, iPad or iPod touch on the other. Between both ends is a female Mini-DIN connector that can be used to connect any digital iRig accessories with Lightning connectivity from a Micro-USB or Mini-DIN port. Through this connection, iRig PowerBridge allows continuous charging while also passing along audio and MIDI information between the digital iRig accessory and the iPhone, iPad or iPod touch.

Through this streamlined setup, now you can keep your iPhone, iPad or iPod touch charged and play with your favorite digital iRig accessories and powerful IK apps for as long as you want, no matter whether you’re performing on stage, recording in the studio or just jamming at home. It’s the perfect complement to powerful digital iRig accessories with Lightning connectivity from a Micro-USB or Mini-DIN port.

Effortless portability, intuitive use

iRig PowerBridge has been designed with portability in mind. It sports a lightweight and compact enclosure that you can easily carry with you in your gig bag of choice. It connects quickly for use and features a LED that provides at-a-glance visual feedback while charging.

Compatible digital iRig devices

iRig PowerBridge allows continuous use and charging of an iPhone, iPad or iPod touch while connected to one of the following digital iRig accessory.

iRig HD

iRig HD 2

iRig Keys

iRig Keys Pro

iRig Keys Mini

iRig Keys 2

iRig Keys 2 Pro

iRig Mic HD

iRig Mic HD 2

iRig Mic Studio

iRig MIDI 2

iRig Pads

iRig Pre HD*

iRig Pro*

iRig Pro I/O*

iRig Pro Duo**

iRig Pro Duo I/O**

* iRig Pre HD, iRig Pro and iRig Pro I/O can be used with iRig PowerBridge to power your iPhone or iPad, but will not provide +48V phantom power without the use of batteries or an external power supply.

** iRig Pro Duo and iRig Pro Duo I/O can be used with iRig PowerBridge to power your iPhone or iPad, but will require batteries or an external power supply to function properly.
