Designed and made in Italy

Comprehensive connections

iRig Pro Duo I/O has 2 Neutrik™ analog inputs to record microphones, guitar/bass, keyboards, synths, and more. New Class-A mic preamps with extended gain range and +48v phantom power ensure professional sound quality and ultra-low noise. And MIDI IN/OUT jacks with breakout cables turn iRig Pro Duo I/O into a full-fledged MIDI interface as well.

Connect your MIDI controller, microphone, and guitar to record an entire jam session on the fly.

Or, connect two microphones to record your podcast, radio show, or live-stream from any location you choose.

Create on all your devices

Ditch the hefty gear and plug iRig Pro Duo I/O right into your favorite mobile device. iRig Pro Duo I/O is compatible with iPhone, iPad, Android, and Mac/PC, with Lightning, USB-C and USB-A cables included for easy plug-in and play setup.

You've got the power

When we say ANY location, we mean it. iRig Pro Duo I/O runs off 2 included AA batteries, USB bus power or an optional external PSU, meaning you're never tethered to an outlet. Let your creativity take you places you never imagined, with flawless audio quality anywhere you need it.

Endless inspiration

iRig Pro Duo I/O is compatible with all your favorite apps, from GarageBand for recording, to FiLMiC Pro for video recording, Bossjack Studio for podcasting, and even Facebook and Instagram for live-streaming. You'll never stop finding new cool apps to use!

A serious production bundle

Don't have a favorite app to work with? Don't sweat it. iRig Pro Duo I/O includes free access to over \$/€500 of IK software, apps, and in-app content. This all-in-one package is everything that you need to record, edit, and share great content with your audiences near and far.
