Kategorija prozivoda: Soundbarovi
Proizvođač: Polk audio

Cena: 29.880,00 rsd

Polk Signa S3 Soundbar and Wireless Subwoofer Black

The Signa S3 soundbar delivers room-filling sound guaranteed to enhance any movie or TV show, whilst still remaining compact. Easily place the narrow soundbar beneath your TV without obscuring any of the picture. The Signa S3 features Dolby Digital decoding for immersive, performance tuned surround sound, and Polk Voice Adjust technology, ensuring you always hear dialogue with the best clarity with three levels. An HDMI ARC connection gives you universal compatibility for HD, 4K and 8K TV, or simply connect with an optical cable if you choose.

The wireless subwoofer allows you to hear every explosion and impact in your favourite movies and shows. You can position the subwoofer wherever you like in the room without worrying about trailing cables.

Always hear the best audio from the Signa S3 with sound modes to match your viewing content. Choose from Movie, Music or Sports, all with preset EQ settings to optimise the soundbar for the greatest experience. Activate Night Mode in the late evenings for reduced bass and clear dialogue, to listen with lower volumes.

With built-in Wi-Fi and Google Chromecast, the Signa S3 is perfect for home music streaming, with access to music services such as Spotify, Amazon Music and TIDAL at your fingertips. Listen to all your favourite music with the Signa S3. With a Google Home speaker, control the Signa S3 using the Google Assistant; play, pause and adjust the volume with just your voice. Alternatively, connect wirelessly with Bluetooth from your smart device to play music.
