Standing at the height of 600mm, the Wharfedale ST-3 metalwork is laser cut from high-grade stainless steel. This precision design means the stand is sold in stature and the stability is optimised. This considered engineering reduces vibrations and resonance of the speaker’s cabinet by effectively isolating the speaker from the floor and surroundings.

The ensured result is a massively improved loudspeaker performance. Keeping things tidy, the Wharfedale ST-3 features cable-tidy slots within the construction to allow secure and uncluttered arrangement of your speaker cables.

With a choice of a textured black or white finish, the Wharfedale ST-3 loudspeaker stands complement any speaker, in any room, aesthetically and acoustically.

Ideal complement for standmount / bookshelf speakers
