Triton Audio BigAmp - Instrumentalno pretpojačalo

Šifra: 14676
Kategorija prozivoda: Studijska Pretpojačala
Proizvođač: TritonAudio

Cena: 8.100,00 rsd

In-line instrument preamp

BigAmp is a small sized, high quality jfet instrument preamp which performs equally well on stage as it does in a studio environment. It has a 1/4" female jack input which accepts signals ranging from the pickup of an electric bass or (acoustic) guitar to the line level output of a synthesizer. BigAmp's low noise class A amplifier provides high end amplification and converts the instrument output signal from unbalanced to balanced.

Bring your own high quality DI everywhere. No hassle with batteries because BigAmp's circuit is powered with 24v/48v phantom power. The small form factor combined with the ease of use makes that every touring musician should have a BigAmp in their case or gigbag.

Low noise Class A JFet amplifier

3db amplification

Balanced output

Lots of headroom

24-48 v phantom power

Input impedance: 1MOhm

Cene su informativnog karaktera. Prodavac ne odgovara za tačnost cena iskazanih na sajtu, zadržava pravo izmena cena. Ponudu za ostale artikle, informacije o stanju lagera i aktuelnim cenama možete dobiti na upit. Plaćanje se isključivo vrši virmanski - bezgotovinski.
