Proizvođač: Chord Electronics

Cena: 9.000,00 rsd

Designed for portable use, Mojo is the ultimate DAC/Amp to use when out and about, but we all know that life is hectic and hands can be clumsy, so the law of averages tells us that, at some point, your Mojo is sadly going to be the recipient of an accident. Unfortunately we've seen it all too often. For example, when was the last time you dropped your phone?

Whilst we've designed Mojo to be practically bulletproof, there's no accounting for cosmetic scratches, dents, or serious G-Force so why not protect your little guy with the official hand made Chord case for Mojo and have the ultimate peace of mind? What's also great is that, if you've ever experienced button presses whilst in your pocket, the Mojo case provides a little more clearance around the buttons to prevent this from happening.

Our case is made from a super strong, soft to the touch, polyurethane material with a nice plush microfibre interior to hold your Mojo snug. Wrapped around the outside is a beautiful leather wrap with trendy Mojo decal. Everything is secured with a double catch and a series of magnets, so nothing is going anywhere, even when dropped from your pocket. As an extra layer of protection we've added a removable hand-strap to help you grip onto your Mojo.

Protects your Mojo from scrapes, bumps, falls, and increased G-Force

Provides a secure cradle for Mojo to sit in where the extra clearance around buttons stops unwanted presses

An optional (included) hand-strap provides extra security

The partially open-ended design allows instantaneous access to all inputs and outputs

Materials Used:

Genuine Leather External Wrap

Injection Moulded Polyurethane Shell

Soft Microfibre Inner
