SVS SB-1000PRO Black Ash Aktivni vufer

Šifra: 15318
Kategorija prozivoda: Hi-Fi Subwooferi
Proizvođač: SVS

Cena: 89.880,00 rsd

Multiple innovations were deployed in the high-excursion 12-inch SVS SB-1000 Pro driver to ensure massive subwoofer performance from a relatively compact cabinet. Advances to the cone, surround, voice coil, and motor assembly maximize excursion for room-energizing SPLs at the lowest frequencies, with precision and control.

Using reference amplifier technology from the flagship SVS 16-Ultra Series, the SB-1000 Pro features a 325 watts RMS, 820+ watts peak power Sledge STA-325D amplifier with fully discrete MOSFET output. Harnessing the immense power while ensuring tonal accuracy and driver control for more convincing bass effects is a 50 MHz Analog Devices Audio DSP with frequency response precisely tuned for the SB-1000 Pro.

SB-1000 Pro also features the SVS subwoofer smartphone app, the most convenient way to control volume, access multiple DSP functions, and program custom presets. Adjust crossover frequencies, a three-band parametric EQ, polarity, room gain and more, all from your favorite seat.

Rear Panel Intelligent Control Interface (ICI).

The rear-panel SVS Intelligent Control Interface (ICI) provides control options and connections for the subwoofer’s most critical functions.

Acoustically Inert and Rigidly Braced Ported Cabinet Design.

Understated yet stylish, the acoustically optimized sealed cabinet features extra-thick MDF front baffle and rigid internal bracing to create a resonance-free environment. Compact enough to fit in nearly any room or system, it serves as a blank canvas for uncompromised subwoofer performance.

SB-1000 Pro Smartphone App – Easiest way ever to manage subwoofer DSP and control.

The most convenient way ever to control volume, access multiple DSP functions, and program custom presets for one-touch tuning optimized for music, movies, gaming, and more. Adjust crossover frequencies, dial-in the three-band parametric EQ, polarity, room gain and more, all from your favourite seat.

12-inch SVS High-Excursion Driver – Room-shaking bass with subtlety and refinement.

Maximizing every available square-inch of surface area, SVS packed a high-excursion 12-inch driver and dual ferrite motor assembly into an acoustically inert, 13-inch cabinet. Thermal management is critical when dealing with such a powerful amplifier and motor in a relatively compact sealed cabinet. SVS engineered a vented pole piece and efficient high-power voice coil to keep the SB-1000 Pro subwoofer cool without impacting performance.

Sledge STA-325D Amplifier – Effortless power with sophisticated control.

Conservatively rated at 325 watts RMS, 820+ watts peak power, the Sledge STA-325D amplifier maximizes the full potential of the 12-inch driver with effortless power and precise control. The innovative design combines the efficiency of a Class D amplifier with the ability to move colossal amounts of current through the fully discrete MOSFETs for outstanding real-world subwoofer performance at all drive levels, in any room, allows easy integration with any home theatre or stereo speaker system.

Driver	12”
Amplifier	325 watts RMS (
Frequency Response	20Hz to 270Hz (
Weight	11.9kg
Dimensions	(H x W x D mm)
Finishes	Black Ash,

Cene su informativnog karaktera. Prodavac ne odgovara za tačnost cena iskazanih na sajtu, zadržava pravo izmena cena. Ponudu za ostale artikle, informacije o stanju lagera i aktuelnim cenama možete dobiti na upit. Plaćanje se isključivo vrši virmanski - bezgotovinski.
