MACKIE Big Knob Studio Plus - Monitor kontroler

Featuring independent trim on all sources and monitor outs, the Big Knob Studio Plus has mono, mute, and dim functions along with a flexible 2x4 USB recording interface. It is built with two combo XLR-1/4" Onyx mic inputs with phantom power for condenser microphones. Recording and playback is at 24-bit / 192 kHz resolution and the cue mix allows for controlled blending of direct inputs with other signals for zero-latency recordings. Choice of recording paths provides flexibility for applications like podcasting and more.

Additionally, other features include flexible source connections, a convenient 3.5mm input for your smartphone, dual headphone outputs with independent level control, a built-in talkback mic and external mic input, a footswitch input, and 16-segment input metering.

Finally, with its sturdy and built-like-a-tank design, the interface is compatible with all major DAWs on both Mac and Windows platforms. The Big Knob Studio Plus features a download for ProTools | First and Waveform software and The Musician's Collection plug-in package including 23 high-quality plugins with BBD Delay, Level Lite, 304E EQ, and 304C Compressor. To authorize the software, simply input the mixer's serial number on the website.

Professional Source and Monitor Selection

- Choose between four sources and three monitor pairs
- Classic Big Knob volume control
