MACKIE MP-220 BTA

Šifra: 15491
Kategorija prozivoda: In Ear Monitoring
Proizvođač: MACKIE

Cena: 21.480,00 rsd

The **Mackie MP-220** are dual dynamic driver in-ear headphones designed to provide enhanced sound isolation and full-range frequency reproduction for musicians, vocalists, and audio engineers in studio recording sessions and live stage applications. The high-performance dual dynamic drivers in each headphone yield a frequency response of 20 Hz to 20 kHz with an emphasis on pronounced bass and detail. The headphones feature a low-profile design utilizing molded enclosures for an ergonomic fit and up to 40 dB of noise isolation.

MMCX connectors allow the shielded braided cable to be detached for easy storage or replacement. Accessories supplied with the MP-220 include foam, silicone, and double-flange eartips in multiple sizes, a gold-plated 3.5mm to 1/4" adapter, and a molded hard carry case.

Sound Isolation and Comfort

Ergonomically molded low-profile enclosure offers enhanced comfort, sound isolation, and bass response

Balanced Drivers

Specially selected dynamic drivers offer a balance of vocal clarity and ample low-end for optimal performance on stage

Detachable Cable

The detachable cable is equipped with swiveling MMCX connectors for easy wearing and replacing

High-Fidelity Performance

The audiophile-grade cable is internally braided and features an outer shielding for enhanced durability and sonic performance

Optimal Fit

With three different types of eartips included and in three different sizes each, you can choose what works best for your ears

Durable Hard Case

Protect your investment with the included molded hard carrying case, which comes with a handy clip for securely attaching it to a backpack

UPC: 663961054194

Mackie MP-BTA Bluetooth Adapter Cable for MMCX In-Ear Monitors

The **Mackie MP-BTA** is a Bluetooth adapter cable with MMCX connectors for Mackie's MP Series in-ear monitors, giving you the convenience of wireless freedom when you want it. The MP-BTA utilizes Bluetooth 4.0 to enable easy, reliable pairing with Bluetooth-enabled devices such as smartphones, tablets, and laptops. The in-line microphone and remote control allow you to take calls, adjust volume, and control playback without having to pull out your mobile device.
