Beyerdynamic TG H56

PERFECT MICROPHONE FOR THE STAGE

The TG H56 microphone commands but does not attract attention – in other words, a commanding and balanced sound meets a subtle appearance. The splash- and sweat-proof omnidirectional microphone can be worn on both sides thanks to the rotatable ear hooks. In addition, it can be positioned with precision due to the variable microphone arm –

benefits that come in to their own when the microphone is used for musicals, theater or sport.

TG PIN OUT

The "TG" version works on pocket transmitters from the Unite series and from the TG series, like -100, -500 or -1000. If the microphone is used wired, the "MA PVA" power converter is necessary, it converts the necessary phantom power from the microphone input into an audio wire power supply required by the microphone.

TOURING GEAR

THE BEST LIVE MICROPHONE SERIES WE'VE EVER BUILT.

Touring Gear - a series of live microphones that are set to excite performers in studios and on stages all over the world. Rugged in design with phenomenal audio quality, they are the perfect complement to beyerdynamic's legendary M series models, including well-known classics such as the M 88 and M 160.
