Saramonic LavMicro 2M

Šifra: 15702

Kategorija proizvoda: Lavalier i Ostali Mikrofoni

Proizvođač: Saramonic

Cena: **9.480,00** rsd

The Saramonic LavMicro 2M is a set of two high-quality clip-on wired lavalier microphones that share one cable and connect to a single 1/8" (3.5mm) mic input. This enables you to put wired lavalier mics on two people and plug into a single mic input on a camera or an audio recorder. The microphones deliver broadcast-quality sound to DSLRs, mirrorless, cinema, and video cameras, as well as audio recorders, smartphones, tablets, and other devices. It features a 23-foot (7m) cable, which gives you plenty of length to position subjects in front of a camera, around a table for a podcast recording, etc.

Both lavalier microphones have omnidirectional pickup patterns, which is desirable when capturing sound for video and audio recordings, because they don't reject sound in any direction. This makes for a more even, natural sound quality. The LavMicro M2 features a battery, which means you can use it with a large variety of equipment, and when used with devices like smartphones, the battery is unnecessary and can easily be switched off.

All of the accessories you need to capture excellent audio are included. The alligator-style mic clips provide a firm grasp to collars and clothing. The fitted foam windscreens diffuse unwanted wind noise. An included 1/4" adapter lets you use the LavMicro M2 with cameras like the Blackmagic Design Cinema Camera. The reusable cable ties help you keep your wires tidy. An included miniature screwdriver is provided for accessing the battery, and the compact soft-shell zippered case is exactly what you need for storage and transport.

2 high-quality wired lavalier microphones that connect to a single mic input

Provides broadcast-quality sound DSLRs, mirrorless cameras, audio recorders, smartphones, tablets, and other devices

A low-cost solution for putting wired clip-on lavalier microphones on 2 people and plugging into a single mic input and achieving excellent sound quality

The omnidirectional pickup pattern of the mics is ideal for video productions and audio recordings

23-foot (7m) cable provides a generous amount of length for creative options, includes compact soft-shell zippered case for storage and transport

Type: Condenser Microphone

Polar Pattern: Omni-directional

Frequency Response: 50Hz - 18kHz

Sensitivity: -32 +/-3dB (0dB = 1V/Pa, at 1kHz)

Signal to Noise Ratio: Less than -75dB

Battery Type: One LR44 3V Battery

Weight: 2.5oz (70g)

Cable Length: 19.7' (6m)

Output: 1/8" (3.5mm) TRS

1-Year Warranty

1 x Dual wired microphone with 2 lavaliers and a 23 foot (7m) cable

2 x Alligator-style microphone clips
