Proizvođač: Saramonic

Cena: 3.120,00 rsd

in and start recording.

The SR-XLR35 is a remarkably affordable piece of equipment that can vastly improve the sound quality of your productions. It's compatible with any camera that features a 1/8" (3.5mm) microphone input, or any Android or Apple device that features a headphone jack. Whether you're shooting with a powerful DSLR or the phone in your pocket, the SR-XLR35 will seriously improve your sound.

Any dynamic XLR microphone can be used with the SR-XLR35. Battery-powered condenser microphones can be used as well, like the Saramonic SR-TM1 shotgun (sold separately). The female XLR connector on the SR-XLR35 features a locking mechanism that prevents the mic from accidentally getting unplugged, and its 9.84-foot (3m) cable gives you plenty of length to work with. A handy hook-and-loop cable wrap is included to keep the SR-XLR35 tidy.

Lets you connect professional XLR microphones directly to mobile devices and cameras to make professional sounding recordings with ease

Compatible with DSLRs, mirrorless cameras, cinema cameras, video cameras and more, works with Android and Apple devices that feature headphone jacks
