---

Šifra: 15803  
Kategorija proizvoda: Hi-Fi Subwooferi  
Proizvođač: Polk audio

**Cena: 35.880,00 rsd**

100W A/B amplifier powers up the 12 inches long-throw, high excursion woofer to produce impressive bass sound which is as low as 24Hz

Built-in controls for volume, variable crossover (80-160Hz) and phase polarity (0/180) help to achieve integrity with in-room speakers, thereby delivering the best sound possible

Rigid MDF cabinet encasement with a removable, precision-fit grille reduces the resonance to give out loud and clear bass with minimal distortion

Designed as the upgraded version of the critically acclaimed Monitor series with latest features and excellent speakers

Compatibility with the latest Dolby Atmos & DTS:X enabled AV receivers and amplifiers intensifies the theatre effect in your room

Line level (RCA), LFE (unfiltered / low pass disabled) and nickel plated, 5-way binding post inputs offer multiple connection options with other devices for a more realistic experience
