Hi-Res Audio Certified
Monitor XT70’s Terylene dome tweeters enable playback beyond the range of human hearing - up to 40kHz - ensuring an airy, clear, high-end energy and spaciousness that you’ll not only hear but feel. MXT70 is perfect for enjoying high resolution movies, gaming or the latest hi-res streaming services like Apple Music, Tidal, Amazon Music HD, Qobuz and Spotify HiFi.

Effortless Bass
MXT70’s dual Dynamically Balanced 6.5" woofers pair with two 8" passive bass radiators to play loud, low and deep, delivering Polk’s famously smooth mid-range and powerful, effortless bass.

Built For Pure Listening
Monitor XT70 was made for the enjoyment of pure sound: Dual nickel-plated binding posts guarantee a direct, lossless connection and provide the ability to bi-amp the speakers; low-resonance, critically braced MDF cabinets isolate the sound of the woofers and tweeter without adding unwanted resonances; and their removable, precision-fit grilles minimize sonic interference.

Dolby Atmos and DTS:X Compatible
Compatible with the latest Dolby Atmos and DTS:X surround sound enabled AV receivers and 4- and 8-ohm amplifiers, Monitor XT does not require specialized equipment to deliver great sound. Add the MXT90 Height Speaker (available separately) to add new dimensions to your surround sound environment.
