Naim Uniti Atom Headphone Edition

Šifra: 16170
Kategorija prozivoda: Hi-Fi Pojačala za Slušalice
Proizvođač: Naim

Cena: 203.880,00 rsd

Uniti Atom Headphone Edition is a headphone-optimised version of the award-winning Uniti Atom music streaming system, designed to be the ultimate solo listening source. Unlike traditional headphone amplifiers and DACs, which require a separate computer or streaming device, Uniti Atom Headphone Edition is a fully formed streaming system: just add headphones. It is also a superb streaming pre-amplifier: simply add a power amp and speakers, or active speakers.

No disturbance, no distractions, no compromise. City office, home study, living or bedrooms, enjoy your music, at your volume - exactly how it’s supposed to be heard. Transform any space into your own audio cocoon, lovingly crafted by the British leaders in high-end sound. Then simply escape to your exclusive world, where music, radio and podcasts have never sounded so good.

All In One

Cut the clutter in your listening life by opting for the compact, sleek Uniti Atom Headphone Edition. Where typical headphone amplifiers demand tethering to a computer, the Uniti Atom Headphone Edition has all the brains – and Naim’s award-winning streaming platform – built in. Put on your headphones; download the Naim app to your smartphone/tablet and start exploring a world of music-streaming services, radio stations and much more – all in stunning quality.

Trickle Down Technology

Uniti Atom Headphone Edition is fully reengineered to offer the optimal personal listening performance. Using trickle-down technology from its flagship Statement amplifier, Naim has engineered a new discrete headphone amplifier, capable of powering even the most premium headphones with ease, via your choice of 6.35mm jack, Balanced XLR or Pentaconn outputs.

Lose The Speakers

Now you don’t need to sacrifice sound quality if you don’t have the space or lifestyle for a more traditional, speaker-based music system. The Uniti Atom Headphone Edition offers all the features and performance of the award-winning Uniti Atom system, but optimised for headphones rather than speakers.

Features and Streaming Capabilities

Naim’s unique music-streaming platform serves up incredible sound quality, allowing you to escape into your own digital music collection, services such as Qobuz, TIDAL and Spotify, and a world of Internet radio – including a curated collection of HD stations - and podcasts. AirPlay 2 support, Chromecast built-in and Roon Ready status add even more streaming options, while analogue and digital inputs mean

you can connect many other sources, too – including turntables – and a USB input supports playback from sticks/drives. Enjoy a huge range of music file formats, in resolutions up to 32bit/384kHz.
