

Primare I35 Analog Black

Šifra: 16202

Kategorija proizvoda: Integrisana Pojačala

Proizvođač: Primare

Cena: 299.880,00 rsd

The I35 is an integrated analogue amplifier – capable of providing exemplary performance. It is the latest iteration of Primare's now iconic 30 series integrated amplifiers and is the first to use the new UFPD 2 power system, a radical reworking of Primare's award-winning UFPD all-analog Class-D technology. Providing 150 watts at 8 ohms of absolutely linear UFPD 2 amplification across the entire audible bandwidth, the I35 delivers naturally fast, clean and agile sound with an unprecedented ability to bring music to life.

This superb unit allows you to upgrade in the future and add the DAC Stage, Primare's new I35 Prisma or upgrade to the CD35 Prisma. The optional configurations offered allows you to build your perfect system for today and tomorrow's technology. The Primare I35 range allows you to configure your system to provide the best sound quality for the components you require.
