Marantz MODEL40N Silver Integrisano Mrežno Pojačalo

Šifra: 16242
Kategorija prozivoda: Integrisana Pojačala
Proizvođač: Marantz

Cena: 311.880,00 rsd

What Hi-Fi? logo 5 stars Image not found or type unknown Image not found or type unknown

"The Model 40n follows in the footsteps of the Model 30 launched back in 2020, but with one major difference. The 30 was purely a stereo amplifier, but its successor has streaming smarts built-in. The clue is the lower case 'n' which signifies it's more than happy to jump on your home network either wirelessly or via its Ethernet socket."

Hi-res streaming built-in

The world and technology move fast and Model 40n is designed for those whose collections are now online as well as physical. As well as Bluetooth, you can set up a connection to your WiFi network wirelessly or through ethernet which opens up a world of opportunity for streaming your favourite playlists and podcasts. The HEOS app negates any need for further streaming equipment and is compatible with Spotify, AirPlay 2, Bluetooth, Tidal, TuneIn, and more! Plus you can connect via USB-A input for further expansion of those deep cuts that may not be available on streaming services. The 40n also provides access to network libraries up to PCM 192kHz/24 bit as well as DSD up to 5.6MHz.

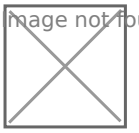

Expertly engineered, unrivalled quality

Housed inside the luxuriously designed unit is a powerhouse of technology ensuring only the best processing of your audio. Marantz developed Hyper Dynamic Amplifier Modules that offer high-speed response for precise and detailed audio compared to standard integrated circuits and a 70 watt per channel Class A/B amplifier stage makes the 40n supremely dynamic and capable of driving even the most demanding of loudspeakers. Musical sound is assured with precise bass, smooth balanced midrange and sparkling highs. Tone control also features so you can tweak your audio to get the

perfect sound for you but also for private listening, you can easily connect headphones with a 6.3mm connector with the included headphone output.

Extensive connectivity

On top of the streaming capabilities, the 40n features multiple inputs, both digital and analogue, to accommodate a variety of sources. The Marantz Musical Phono EQ allows for vinyl playback, 4 stereo audio inputs allow for use of CD and line-level sources, a coaxial and optical input allows for digital sources and an HDMI ARC input allows you to integrate your AV setup allowing you to improve on standard TV audio for more immersive movie nights. What's more, there is also a subwoofer output for when you want to give your sound a little more impact.

What's in the box?

Network Integrated Amplifier

Power cord

Remote control

2 x AAA batteries

External antennas for WiFi/Bluetooth
