audiolab 6000N Play Black Mrežni plejer

Šifra: 16393
Kategorija prozivoda: Network Plejeri
Proizvođač: Audiolab

Cena: 59.880,00 rsd

What Hi-Fi? 5 stars
" Aesthetically, the 6000N Play is as unassuming as hi-fi streamers come, with a screen-less, largely unadorned chassis that gives nothing of its vast network talents away. But behind that modest façade, the 6000N Play has every right to exude an air of quiet confidence. It arrives as the third component in its mid-range 6000 Series, following the five-star 6000A integrated amplifier and the 6000CDT CD transport, borrowing tech and features from both of its slightly older siblings. "
reedom of Choice
DTS Play-Fi is premium whole-home wireless audio, now available from the largest ecosystem of brands in the world. Stream your favourite content with astounding audio quality, from every device that you've got. Every single DTS Play-Fi product works perfectly with all the rest, regardless of brand, so you get a huge range of options to customize your home.

Music Presets
Our music presets are just like the presets in your car. Hold down to set, press once to start playback. Easy. Now you can store stations and playlists from compatible streaming services to buttons on your product for quick access whenever you need it. Enjoying music couldn't be easier.

Critical Listening
Want to sit down in a specific room and appreciate the fine subtleties of your high resolution audio collection? DTS Play-Fi has you covered. Critical Listening mode allows you to send your high resolution audio files to your premium DTS Play-Fi product with no trans-coding or down-sampling, no wires necessary.

A/V Synchronisation
No longer do you need to suffer through the tiny speakers of your laptop or tablet when watching videos or YouTube. With the DTS Play-Fi app for Windows, turn on Video mode, and send the audio to the nearest DTS Play-Fi product to enjoy your video with premium sound wirelessly A/V synchronised.

An Endless Supply of Music

The 6000N with DTS Play-Fi comes with a wealth of music options from around the globe. Spotify, Pandora, Deezer, Napster, KKBox and Sirius XM, to name a few. Browse a radio guide with thousands of stations and podcasts, or stream from a home media server.

Wi-Fi Technology - DTS Play-Fi streams music over standard Wi-Fi networks, delivering perfectly synchronized audio, with no lag and zero loss in sound quality.
Easy Setup - No logins, no complicated computer-based setups. Just download the app and within minutes, you’re ready to listen.
Lossless Audio Streaming - Stream in 24-bit/192kHz with compatible streaming services and files formats.
ESS Sabre32 ES9018K2M Reference DAC - The inclusion of a DAC stage ensures the 6000N Play can be used with any audio system.
