

CHORD C-screenX Speak.Cable 50

Šifra: 16681
Kategorija proizvoda: Hi-Fi kablovi na metar
Proizvođač: CHORD

Cena: 1.080,00 rsd

Now featuring improved XLPE insulation, it joins the award-winning line-up of Chord Company shielded speaker cables, including the acclaimed ClearwayX, ShawlineX and EpicX/XL.

Our design objective was to produce a cable discreet enough for easy fitting and routing, with all the performance benefits that shielding can bring.

C-screenX is just 9mm in diameter and flexible enough to route around corners with ease. It's finished with a white outer jacket which protects the shielding and makes it virtually invisible against white skirting boards.

C-screenX features multi-stranded oxygen-free copper conductors, insulated with XLPE and arranged in a twisted-pair configuration to reduce interference. The cable is then enclosed in a PVC casing that reduces mechanical noise and spaces the conductors correctly, relative to the twin-foil shielding.

C-screenX has the same characteristics as our other shielded speaker cables: the ability to carry a musical signal with a genuine sense of musical coherence and involvement; shielded speaker cables bring real performance benefits to both hi-fi and home cinema systems, where interference can seriously affect sound quality.

At this price per metre and with the unquestionable performance one might expect from a Chord Company cable, C-screenX is an ideal product for home cinema systems, where often complex cable-run requirements are the norm. It performs extremely well over longer runs and is easy to fit/route.

Conductor	High Purity OFC
Insulation	XLPE
Configuration	Twisted pair
Shielding	High density foil. PVC outer jacket.

AWG	16
mm²	1.31
Overall dia	9mm
