Kategorija proizvoda: In-Ear Slušalice

Proizvođač: Marshall

Cena: **7.080,00** rsd

### FLIP THE SWITCH, CHANGE YOUR SOUND

Mode EQ offers a huge sound in a small package. Combined with excellent audio, a tangle resistant cord and unique styling that embodies the Marshall legacy.

### MODE EQ

Mode EQ offers huge sound in a small package. Customised drivers deliver high-output sound at minimal distortion and the unique in-ear design anchors to your ear, while still providing a comfortable fit. The Mode EQ comes with an EQ switch on the remote allowing you to customise your sound even more.

### MODE EQ SWITCH

No two people are alike, which is why there are two different EQ settings on the Mode EQ. Use the first EQ setting for warm, bass-heavy sounds. Use EQ II if you prefer your music to be brighter with an emphasis on the mids and highs.

### BIG SOUND, SMALL PACKAGE

Mode EQ's compact design and maximum sound output might make them the best in-ears on the planet. Customised drivers have been fitted into Mode EQ's tiny frame to produce a well-balanced audio that boast a clear midrange, extended highs and deep bass.

### MARSHALL DESIGN

Mode EQ sports the iconic Marshall logo on the cable clip and Marshall M logo on its earphones.

### MICROPHONE & REMOTE

Using Mode EQ to receive phone calls and control music is a breeze. Click once to answer incoming calls or hang up, as well as play and pause your music. Click twice to fast-forward your music, click three times to go back.

### THE PERFECT FIT

Ears come in all shapes and sizes, which is why Mode EQ comes with four different size sleeves in order for you to find the perfect fit.

### DURABLE CONNECTION

Mode EQ's L-plug design offers a more durable connection to your device. The plug is compatible with any music player that receives a 3.5mm jack.

### NO MORE TANGLES

Having to untangle your headphone cord sucks, which is why Mode EQ comes with a rubber coated tangle resistant cord.
